Panasonic Industrial Europe

Find out how we can power your business!

Matsushita Electric Industrial Co. Ltd., founded in Osaka 1918, is one of the world's largest manufacturers of quality electronic and electrical equipment. Its subsidiary, Panasonic Industrial Europe GmbH (PIE) deals with a wide diversified range of industrial products for all European coun-

tries. This company was formed in 1998 to strengthen Panasonic's pan-European industry operation, and today is active in such different business fields as Car Electronics, Components, Consumer Batteries, OEM/Industrial Batteries etc. to satisfy its customer's needs.

PIE Organisation

The Industry Battery Unit (IBU) is responsible for the OEM/Industrial Battery business in Europe, with sales offices strategically located throughout the continent. The head office, located in Germany (Hamburg), is responsible for Central Europe (Germany, Benelux, Swiss, Austria, Scandinavia) and Eastern Europe. The UK/Ireland (Bracknell), France (Paris), Italy (Milano) and Spain (Barcelona) are supported by local offices. In addition, we are able to offer an extensive distributor network. Based on both of these sales channels we are capable of supplying each customer's own power solution.

Find out how we can power your business!

We are able to offer you a wide range of individual power solutions for portable and stationary applications. Our product range includes high reliability batteries such as Lithium-Ion, Lithium, Nickel-Metal Hydrid, Nickel-Cadmium, Valve Regulated Lead Acid, Alkaline and Zinc Carbon. Based on this battery range we can power your business in virtually all applications.

Such as:

- *Mobile Phones → Powertools*
- *UPS → Measuring Devices*
- *Keyless Entry → Personal Care*
- *Vacuum Cleaner*
- *Medical Equipment*
- *Electronic toll collect system*
- *Portable communication devices*
- *Communication infrastructure*

Quality Commitment

Panasonic Batteries – safety, long-life and power!

Matsushita Batteries Industrial (MBI) started its production of Panasonic batteries in 1931. Today MBI is one of the most diversified global battery manufacturers with a network of 23 manufacturing companies in 15 countries. More than 16,000 employees are dedicated to the invention and development of new batteries for a new world.

When it comes to production our facilities employ leading edge manufacturing processes meeting the best quality standards. Our factories are certified to ISO standards. This means that each factory has its own quality and environmental management. The ISO 9000 and ISO 14000 series are the minimum benchmarks that ensure our excellent product reliability. In addition our VRLA batteries are for example approved to German VdS standard and U.S. UL standard.

UL Standard

Our VRLA batteries fall into UL 1989 (Standby Batteries). UL 1989 requires that the battery is free from the hazard of bursting, that is, when the battery is overcharged the vent valve opens to release internal pressure.

JIS (Japan Industrial Standard)

Our small sized VRLA batteries comply with JIS C 8702.

EN 60896-2**Factory Standards****ISO 9002****ISO 14001**

The Quality System and the Environmental Management System at our plants were recognized and registered as conforming to ISO.

Other applicable Standards**EN 50272-2****DIN VDE 0510, Part 2****GOST-R**
